

Brush-Head Buying Checklist

Keep your model details handy before ordering replacement heads.

1. Identify the right replacement

Toothbrush brand and exact handle model:

Compatible replacement-head name or number:

Preferred bristle softness or dental-team advice:

2. Check before you buy

- ☐ The listing names my exact model or compatible series.
- ☐ I checked the bristle type and head size.
- ☐ I checked who sells the item and the return policy.
- ☐ I compared the pack price and number of heads.

3. Compare purchase options

Seller / head option	Pack price	No. heads	Per head

Price per head = total pack price ÷ number of heads

My chosen option: _____

Check compatibility using the manufacturer’s information.

Brush-Head Replacement Tracker

Use one sheet per person and toothbrush.

Name: _____ Handle model: _____

Replacement-head name: _____

When should I replace it?

Follow the manufacturer’s replacement instructions.
Replace sooner if the bristles become frayed or splayed.

My usual replacement interval: _____

Manufacturer / dental-team instructions: _____

Record each replacement

Date installed	Planned replacement	Actual replacement	Bristle condition / comfort notes

Check bristles between planned replacement dates.

Bring persistent brushing discomfort to your dental team.

Print at actual size on US Letter paper. Write in the blank spaces.
